

**Freight Operator Agreement
Terms and Conditions**

These are the terms and conditions of the Freight Operator Agreement between the company which issued the Covering Letter ("Eurotunnel") and the Freight Operator. They, in addition to Eurotunnel's Conditions of Carriage and the Covering Letter, shall apply until they are amended from time to time by Eurotunnel.

1 DEFINITIONS

The definitions in Eurotunnel's Conditions of Carriage apply equally to these terms and conditions.

Capacity Allowance	the amount of Commercial Vehicles per Day anticipated for travel under the Freight Operator Agreement, based on the recent historical volume of the Freight Operator with Eurotunnel or on agreed forecast, and as available to the Freight Operator on www.eurotunnelfreight.com
Conditions of Carriage	Eurotunnel's Conditions of Carriage available on the Eurotunnel website (www.eurotunnelfreight.com) or upon request from Eurotunnel.
Covering Letter	the letter from Eurotunnel to the Freight Operator enclosing or incorporating these Terms and Conditions.
Day	for the purposes of calculating the Capacity Allowance and the Freight Rate for a specified day, a day runs from midnight to 11.59 pm (local time).
Freight Operator	any person, firm or company who operates an account with Eurotunnel for the transport of Commercial Vehicles through the Fixed Link.
Freight Operator Agreement	means the agreement between Eurotunnel and the Freight Operator set out in the Covering Letter and incorporating these Terms and Conditions and the Conditions of Carriage.
Freight Rate	the price payable by the Freight Operator for the transport of Commercial Vehicles (and its Passengers) through the Fixed Link set out in the Covering Letter (as varied on reasonable notice). As set out in the Covering Letter, the Freight Rate will be different according to the dimensions of the Commercial Vehicle and whether or not the day of travel is a day when Eurotunnel expects significantly high volumes of traffic. In addition to the Freight Rate, we may invoice additional costs in the cases mentioned on the page https://www.eurotunnelfreight.com/fee

2 CAPACITY ALLOWANCE

- 2.1 Eurotunnel will, so far as reasonably practicable, permit the Freight Operator's Commercial Vehicles to travel through the Fixed Link to the extent that is within the Capacity Allowance for each Day. Eurotunnel may at its absolute discretion (but is not obliged) refuse carriage to the Freight Operator's Commercial Vehicles which are in excess of the Capacity Allowance for the applicable Day.
- 2.2 The Freight Operator may, at any time, request that Eurotunnel amend the Capacity Allowance. Eurotunnel may, provided it can reasonably accommodate the new Capacity Allowance, approve the amended Capacity Allowance and make any necessary adjustments to the Freight Rate. Any such amendments shall become effective upon Eurotunnel's written confirmation being sent to the Freight Operator.
- 2.3 Eurotunnel will periodically review the Freight Operator's actual figures for travel through the Fixed Link and reserves the right to adjust on this basis the Capacity Allowance and consequently the Freight Rate.

3 REQUIREMENTS FOR TRAVEL

- 3.1 To travel the Freight Operator must comply with (and ensure the driver, Passengers and the Commercial Vehicles complies with) Eurotunnel's published requirements.
- 3.2 LPG or equivalent flammable gas tank or dual powered vehicles (i.e. vehicles fitted with an LPG or equivalent tank as an alternative fuel) cannot be accepted for transport by Eurotunnel Le Shuttle, whether or not the LPG or equivalent tank is empty or the LPG or equivalent mode of the vehicle is not selected.
- 3.3 For the Commercial Vehicle to be entitled to the benefit of the Freight Operator Agreement the driver will be required to provide certain documentation and fulfill certain requirements as notified by Eurotunnel to the Freight Operator from time to time. If the driver cannot produce such documentation then the Freight Operator Agreement shall not apply to that Commercial Vehicle.
- 3.4 For the avoidance of doubt, where Commercial Vehicle travels on behalf of more than one Freight Operator, it is the responsibility of the Commercial Vehicle driver to ensure travel is made on the correct account failing which Eurotunnel will determine the relevant account at its absolute discretion. Unless otherwise agreed by Eurotunnel, journeys will not be re-invoiced to different accounts.
- 3.5 The Freight Operator shall ensure that no person under the age of 12 shall travel in or with a Commercial Vehicle through the Fixed Link.
- 3.6 The Freight Operator shall ensure its employees, servants and agents, drivers and subcontractors and all Passengers are aware of, are subject to, and comply with the Freight Operator Agreement (including these terms and conditions and the Conditions of Carriage). The invoices will cover the travel made on the Freight Operator's account pursuant to the Freight Operator Agreement for the period noted on the invoice. Each SEPA Direct Debit will be made as from the Due Date indicated in the invoice.

Payment shall be made by direct debit or by electronic transfer of funds to the Eurotunnel account notified by Eurotunnel to the Freight Operator (unless agreed otherwise in writing).

It shall also pay a statutory fixed charge to cover debt collection costs of either 40 € or compensation from £40 to £1,000 depending on the outstanding amount, as well as an amount equal to 15% of the amounts due in principal. Eurotunnel shall retain the right to claim damages, call for the immediate payment of all amounts owed by the Freight Operator in the case of deferred and not yet due payment or cancel the current bookings.
- 4.4 The Freight Operator must raise any queries on the invoice with Eurotunnel within fourteen days (14) of the date of the invoice, failing which the Freight Operator will be deemed to have accepted the amounts on the invoice.
