# EXTRACTION SOCKET PACKS

*for your convenience*

## Geistlich Bio-Oss® Collagen

Geistlich Bio-Oss® Collagen is a combination of 90% Geistlich Bio-Oss® granules supplemented with 10% highly purified porcine collagen. Particularly suitable for extraction sockets and periodontal indications.

<b>Code</b>	<b>Size</b>
500072	100mg

## Geistlich Bio-Gide® Shape

Geistlich Bio-Gide® Shape is a pre-cut collagen membrane designed for the treatment of extraction sockets. The new membrane is based on the Geistlich Perio technology: enhanced stiffness prolongs the time for exact positioning.

<b>Code</b>	<b>Size</b>
500352	14 x 24mm

## Geistlich Perio Combi-Kit

The successful duo, Geistlich Perio-System Combi-Pack is ideal for treatment of Extraction Sockets, Ridge Preservation and Minor Bone Augmentations. The pack includes Geistlich Bio-Oss® Collagen and a Geistlich Bio-Gide® Perio with multiple sterile templates so you can shape your Bio-Gide® Perio according to the defect.

<b>Code</b>	<b>Size</b>
500135	Bio-Gide® Perio 16 x 22mm Bio-Oss® Collagen 100mg

## Geistlich Bio-Oss® Collagen

Geistlich Bio-Oss® Collagen is a combination of 90% Geistlich Bio-Oss® granules supplemented with 10% highly purified porcine collagen. Particularly suitable for extraction sockets and periodontal indications.

<b>Code</b>	<b>Size</b>
