

SUSTAINABLE INNOVATION AND INDUSTRY 2025

WEDNESDAY

30

APRIL 2025

13:30-16:30

VENUE
CHELSEA
HOTEL

Register your
interest here

Industry experts from around the world will discuss the opportunities and the challenges of helping their organizations meet sustainability goals while maintaining a profitable business. Learn how top executives are tackling supply chain issues to reduce the carbon footprint of their operations, sourcing sustainable raw materials, establishing science-based targets measurements, and help their customers achieve sustainable outcomes.

This event will precede the prestigious SCI Canada Awards, celebrating excellence in science and industry.
